- ▲ Improves Pregnancy

KEY POINTS

1. More often than not when you follow our shopping list you save money. This can be used to pay for our products and even join the business! Opt 4- 120
2. On average we spend £5.00 on our lunch. Use the shakes for lunch 5 days per week and you will save £25.00 per week - £100 pounds per month. So as you can see you can afford the product range even more in combination with the shopping list and even start your own franchise and share JP with the people you know like and meet.
3. As a result of embarking on our program you will often find it is much easier to stop snacking and picking. Again you can use this money to purchase the juice Plus products - maybe our bars which you can keep in the car in case you go hungry.
4. Juice Plus cost between around £3.00 and £1.00 per day. This is less than a cup of coffee. So it's of value in any case.
5. Juice Plus helps attack illness and disease at a cell level. It reduces FREE RADICALS that are one of the main causes of illness and disease by 75% in just 7 days! Unbelievable for just a few pounds per day.
6. You purchase 4 months of JP and no more until you use it up. This is because 60% of your body's cells are brand new after 120 days. You are more likely to feel more of the above benefits the longer you are on our breakthrough in nutrition.
7. Children can have our product for FREE if an adult take's the product.

In short you are SAVING money whilst becoming healthy and flooding your body with nutrients with a product that is proven to be nutritious unlike the fruit and veg we consume from our supermarkets. Even better kids can have the product for FREE.

or £1.77 per day. The capsules will last for 4 months and you will get approx 120 complete shakes from the 6 pouches.

BARS JUST
£2.40 EACH

Combining the Capsules and Shakes helps your body to get into a balanced state, which in turn helps shift those unwanted pounds and what actually happens for most people when they start on the capsules is that firstly their energy level should improve, they will also be drinking more water which will be flushing the toxins out of the body and 9/10 times their taste buds will change which makes it much easier to cut out the unhealthy food.

Team Rhino 5 Month Plan

Month 1 - MAIN DETOX
Replace two meals per day (often breakfast and lunch) with a shake. Have 1 portion of fruit as a snack mid-morning and mid-afternoon. This helps control your blood sugar levels. Always have the capsules.
Month 2
If you are happy with your weight then just use one shake 5 days a weeks. If not carry on with the two shakes per day. Always have the capsules.
Month 3
As in month two. Always have the capsules.
Month 4
As in month three. Always have the capsules.
Month 5 Onwards...
Concentrate on your new wheat free and dairy free lifestyle. Always have the bars and the shakes in case of emergencies. Go back to month one if you feel you need to start again.

*Every adult who orders Juice PLUS+ Premium or Fruit and Veg Capsules can receive a free supply of Fruit and Veg Soft Chewables or Capsules for up to 4 years for a young person up to the age of 21 years (postage is paid on the child's product).
